

Submitter: Nina Council  
On Behalf Of: HB 3214  
Committee: House Committee On Judiciary  
Measure: HB3214

HB 3214 Exotic animals are forced to travel 15 to 25,000 miles a year in extreme confinement for months on end, shackled or in small cages. They are deprived of basic needs such as adequate space to eat and move, defecate/urinate and exercise. They endure extreme weather change and in general live lives of absolute misery. Many other issues are involved such as brutal control, diseases, expenses, and human safety. More than 3/4 of Americans oppose the abuses of our wildlife animals. There is nothing natural about traveling animal shows, this is not education, there is nothing natural about what participants are viewing and feeling. It is time to support, and protect all of our wildlife but out in wild with preserving their habitats, their lands. Please support HB 3214 and ban those traveling shows. ,
