Committee: House Committee On Rules  
Measure: HB3509

Dear Committee Members,

I am adamantly opposed to ranked choice voting for both partisan and non partisan races. This public policy will disenfranchise voters due to making the system more confusing and muzzling the voices of the voters. How is that different from despotism? RCV along with required technology also makes it easier to rig elections, making our system ripe for fraud and abuse. Please vote no on this horrible idea. Alaska has had a bad experience with it. We need clean voter rolls, better ethics, a simpler system that eliminates mail in voting, and better integrity in our elections.
