

Submitter: Christeen Fischer

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB85

Dear Senator Golden and committee,

I am writing as a concerned Oregon resident to ask you to support the moratorium on large scale factory farming in Oregon. The negative impacts of having so many animals crowded together in these facilities on water use, land use, clean air, and neighborhoods is considerable. With the growing concerns over the environment, we must limit further harm so that we can take steps to repair and rebuild a healthy environment for all Oregon residents.

Thank you.
