

Submitter: Kris Clarke
On Behalf Of: Argay Neighbors
Committee: Joint Committee On Semiconductors
Measure: SB4

I have lived in this area a short 10 years. I was amazed at how all the neighbors looked out for each other. You could walk in many directions to the grade school, junior high & high school. We were thrilled when the park was FINALLY put in our neighborhood after waiting almost 18 years. In other words, we'd like to stay a neighborhood, to have a company that would complement our living standards. A trucking company, with the traffic, exhaust, and 24 hour noise would not be welcome. We deserve to be a neighborhood where all the kids can walk to school and can run in the track fields and breathe clean air. I'm asking you, would you want it down the street in your neighborhood?

Thank you, a concerned neighbor, Kris Clarke
