Measure: HB3492

I oppose HB3942. People need to be self-sufficient and not depend on the government. I have always said do not hand the person a fish; show them how to fish to be self-sufficient. Our government needs to quit disabling able body people. Our government should be promoting programs for people to be an effective person in society. The government is doing the opposite; the government wants more people to be dependent on the government.
