

Submitter: Lise Hubbe

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB85

Chair Golden and members of the committee

Thank you for receiving this testimony, and for considering the input of all the people who are sharing their thoughts on this topic. I have been involved in the stewardship of my family's farm outside Scio since 2000. I support SB 85. I am especially concerned about water quality and water usage. It seems wise to me to take a pause on the permitting of large CAFO's while we review and update our laws. We all depend on the health of our natural environment. Let's prioritize it's preservation.
