

Submitter: Kaitlin Cox

On Behalf Of: Bliss Roofing

Committee: House Committee On Climate, Energy, and Environment

Measure: HB3152

I strongly OPPOSE HB 3152. I do not believe phasing out natural gas in residential housing is a good long term plan. It should be the CHOICE as a homeowner. Going all electric is not the answer!! What if the power is out? How are these electric cars, appliances made? With MORE emissions than gas cars & appliances! I strongly OPPOSE HB 3152.
