

Submitter: Jennifer Herrera

On Behalf Of:

Committee: House Committee On Higher Education

Measure: HB3561

Hi I'm Jennifer Herrera and I am for this bill because I am a childcare provider and I am going to college for early childhood education and working everyday in my daycare as a sole provider. It is taxing and sometimes overwhelming. It would be nice to have funds to get some help so I can study or work on college exams. I think this will help all of us who are going to school for early childhood education. It is a requirement for the state to have a bachelors degree to advance from home daycare to a facility. And as a requirement for college you need 300 hours of being in a classroom and my daycare only counts for less than half of the hours. How am I supposed to do that when I take care of 8+ children everyday? So this bill would help immensely!
