

Submitter: Sandra Joos

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure: SB869

My name is Sandra Joos and I live in Portland, Oregon. Oregon needs a lot more affordable housing, and other buildings like schools and hospitals, for our growing population. These should ALL be built smart from the start, healthier and more resilient against growing climate harms. Our first step should be to stop making the problem worse. It's more affordable to build all-electric with heat pumps, and more affordable to live and work in homes and buildings that waste less energy.
