Measure: HB2004

Hello, I support RCV because it enhances democracy. Ranked choice voting creates a more reflective democracy - benefitting candidates, elected officials, and most importantly: voters. It removes many barriers to entry for new voices running for office, and allows them to run (and govern) on the issues they and voters care most about.

Oregon has a history of relatively high voter turnout and policy innovation- let's do it again on democracy with RCV!
