

I OPPOSE [HB 3366]...

[HB 3366] has not demonstrated how "fragmentations, development and succession planning" activities will cease therefore protecting farmlands.

***Stiff Legislation to strengthen Land Use Laws is the only way to save Farmlands from, "fragmentations, development and succession planning" activities.

[HB 3366] seems to support "Non-profit Corporations" and increases the cost of government.

The cost of government in Oregon is already too high.

David S. Wall
Mr. Oregon Concur.
