

Submitter: ROBERT AMES

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB3214

This bill is not good for the education of our children and is overreaching. Living in a rural community, some of these animals will only be seen by children at the fairs and exhibits. There is nothing like seeing them in person. There are already many laws in place to protect the animals. I oppose this House Bill 3214.
