Joint Committee on Transportation

Dear Joint Committee:

We write to oppose HB 3382. It is outrageous that any entity, let alone a public body like a port district, should seek to be exempted from state and local land use planning laws and the ordinary public process associated with those laws. The bill would subvert public process. It could do real harm to estuaries and to other lands in and around the affected ports. Please do not allow this bill or the concepts set out in this bill to advance.

Thank you for your attention to our concerns.

Sincerely,

/s/

Daniel Anderson & Joy Strand
