

Submitter: Tom Bowerman

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB3382

HB 3382 is a terrible proposal. Oregonian's cherish our natural landscapes and nothing is more precious than the tidewaters where the fresh meets the salt. If this bill came to fruition, I envision really ham-handed excavation and nasty destruction of critical habitat. Please do not let our fellow Oregonian's down, do not move this bad proposal move forward. Thank you. Tom Bowerman
