

Submitter: Sheila Nielsen

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

I strongly oppose this bill as it puts the life of a minor at risk emotionally, psychologically & physically all without the knowledge of the people who were placed on earth to protect them. There are many, many instances of minors making life changing decisions & having to live with the condition consequences. They can't change their mind on this.

Doctors should have the choice to opt out of mutilation. Forcing people to maim & harm another is sickening.

I believe that all of this is a for profit system benefitting only the government. They benefit off of emotional & psychological issues of children & then from the medical procedures & again for the after care as people have to pay for continued hormones, medications from issues resulting from cutting off or re-routing reproductive & urinary parts..and again, more medications.
