

Testimony opposing hb3214

I, Josh Fitzgerald oppose house bill 3214. My specific reason in opposing this bill is due to the fact that it will directly affect individuals lively hood and everything they've worked their entire lives to build. Individuals responsible for promoting this bill have not taken into consideration the lives and work opportunities provided to them with having the ability to transport and provide livestock for events that require these livestock. It's their way of life. It's the way they feed their kids. It's the way they pay their mortgage. If this bill passed, it would put a lot of people out of work, out of money and essentially out of their homes. Thank you

Josh Fitzgerald
