

Submitter: Gilbert Fonyuy

On Behalf Of: Express health care professionals

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2665

I am sending in this testimony, in opposition to House Bill 2665 on pay rate caps. It is totally unrealistic and unacceptable for this to happen, given all the sacrifices we make, to move from one facility to the other, risking our lives because of our commitment and love for the elderly. Passing such a bill to me constitute a disfavor and disregard for the elderly, whom we are called upon to show our love and care. It's a manifestation of insensitivity to all our hard work and indeed a blow and disservice to the health care process. In addition, this constitute a violation of human rights to a remuneration offered in return for a precious service. Thanks
