

Submitter: James Hepler
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2007

HB 2007 would create a patchwork of regulated spaces that would be impossible to navigate. It would almost certainly make lawbreakers of some of the most law-abiding citizens, conceal carry license holders. Why attack law-abiding citizens? By the way, this is almost certainly unconstitutional for the vagaries it would create and the likely limits it would place on traveling by road from one property to another, which are both owned by the gun owner. Adjacent grounds may include the public right-of-way (ORS 93-310). I oppose this bill.
