

Submitter: Rick Alexander
On Behalf Of: All free persons
Committee: House Committee On Judiciary
Measure: HB2007

“Gun Free zones”

Have we not learned from school shootings, club shootings, post office shootings, work place shootings that “Gun Free Zones” don’t work? By creating even more and larger spaces where a person is “not allowed” to carry, more people are going to be put in a dangerous situation. You will not sufficiently fund the police you expect to be everywhere, and infringe upon the Second Amendment Rights of a free people causing a major open invitation to anyone who would choose to acquire a firearm in order to create massive chaos. Vote no on this and any other bill that will further endanger and strip the Rights from a free people.
