Committee: House Committee On Judiciary  
Measure: HB2005

HB 2205's intent is to punish American Citizens for making their own firearms which is unconstitutional. This is a fact that has been recognized for 200 + years. If a citizen has a gun they manufactured, and HB 2205 becomes law - they immediately become a criminal. Do you really think "actual criminals", not law-abiding citizens, will stop their criminal activity?

By definition, a Criminal is someone who commits a crime. CRIME. A crime is an offense against public law. In short, you are turning law-abiding citizens into criminals, and HB 2205 will do nothing to stop criminal activity - by definition criminals ignore laws.

I suggest you focus on enforcing current laws with consequences that deter future crimes
