

Submitter: Jeff Conant

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2006

I am strongly opposed to this bill specifically for the reason that a serviceman of age can be expected to use a firearm to defend the country and then be denied the ability to protect himself at home with a firearm. And although service members are trained on proper use of a firearm, the issues we are attempting to address with gun control laws aren't a matter of proficiency with a firearm but rather an issue of mental capacity to do harm to a stranger. Therefore I stand opposed to this bill.
