I oppose this bill. As a licensed conceal carry holder this bill would require me be aware of every building or location it would not be legal for me to enter with my concealed handgun. To suffer legal action up to fines and imprisonment even if my weapon were never revealed violates Constitutional rights. My concern is that bad people with the intent to harm others would have much more of a chance to inflict harm to myself or others if I could not defend myself. Having metal detectors makes sense for court rooms to assure no one is armed in a place where tempers or grudges could provoke action. But this bill does not mention metal detectors will be installed in every location you designate a gun free zone. Plus, this would force me to leave my firearm inside my vehicle where it could be stolen while I walk into a building.
