This is my testimony.

SB 768 collection of student grade data
SB 768 VOTE: NO

In Committee
Public Hearing 03/23/2023 3:00pm HR B

This bill requires Department of Education to conduct study to determine feasibility of collecting student course grade history in grades 6 through 12. The vagueness makes for poor legislation. Since this statement is singular, “collecting student course grade history” that it isn’t a collective report, but on individual students. Protecting individual student information beyond the local school is important. Tracking individual records can only lead to pigeon-holing students into career paths and destroying initiative.

Thank you,
