

I am Neutral on [HB 3030]...The welfare state keeps growing.

I support the position "No" child should g hungry.

[HB 3030] supports the increase in the size of the welfare state in Oregon.

[HB 3030] will be very costly. Where is parental responsibility for their children?

Why do taxpayers must be saddled with raising other people's children?

Are parents compelled to perform voluntary work for the school District to qualify their children for "free meals?"

David S. Wall

Mr. Oregon Concur.
