

Submitter: Diana Draper

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2665

Dear Oregon Legislators,

As a nurse, if my labor rates are so low I cannot sustain my family or my responsibility for my bills. If the rates are applied in Oregon I will be forced to leave the nursing world and find another means of employment. I urge you to not cap our wages. My fellow nurse co-workers urge you to not cap our wages. Some will just go to Washington State and others will leave the field as will I.

I urge you to oppose this bill.

Thank you,
Diana Draper
