

Submitter: Robert Hart  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB2007

Chair Kropf, Vice-Chair Andersen, Vice-Chair Wallan

I am opposed to HB 2007 and ask that you reject this bill. This is not the first bill that proposes to restrict areas when Concealed Handgun License holders can carry their weapons and will likely not be the last. The incidences of CHL holders committing crimes with their handguns are extremely rare. All this does is to create additional gun free zones where criminals will have less opposition to criminal activity. It will make CHL holders criminals if they carry their weapons on areas adjacent to any government entity that adopts the provisions of this bill. Additionally, the bill says "adjacent area" and does not limit this to government property. This could be any privately owned land. This is poor legislation that will not make Oregon safer. Please reject this bill.
