

Submitter: Theresa Huffman  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB2007

More restrictions on legal, gun purchases and use of them, is a direct violation of our 2nd amendment. So, I'm sure if this horrible bill passed, that there will be many lawsuits against Oregon, and Tina Kotek personally.

Taking guns away from citizens, who have legally purchased them, is a death sentence to our citizens.  
But, that may be what you want: a defenseless state.

The right to keep and bear arms is so important, that our founding fathers put it second, right behind free speech, free press, etc.
