

Submitter: Eric Hill  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB2007

The law abiding citizens that have went through back ground checks to obtain firearms legally are not the problem. Furthermore, there has long been a system in place to only issue permits to those who hold a Concealed Carry Permit, that is for personal protection, to those who are law abiding, safe, and responsible. This law merely would endanger the law abiding citizens. No amount of laws will stop those who already break the law.

Instead, why don't you focus on checking the permits or legality of who may be carrying? If all good people carried protection, the rate of incidence would be drastically reduced.

thank you for consideration.  
Eric Hill
