

Submitter: Michael Monen

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2005

This HB (HB 2005) is just another proposed violation of my Civil Rights. Please show me in writing, were in the United States Constitution and/or the Bill of Right's that it is a crime to construct any type of arms at my own home. Furthermore, provide data (and don't continue to lie or manipulate the numbers) that would even begin to substantiate that these guns built by law abiding citizens are any more threat of violence then one purchased at a federally licensed gun dealer.
