Committee: House Committee On Judiciary
Measure: HB2006

This HB (HB 2006) is just another proposed violation of my Civil Rights. Please show me in writing, were in the United States Constitution and/or the Bill of Right's that it is a crime to allow a person under 21 to own a gun. Furthermore, provide data (and don't continue to lie or manipulate the numbers) that would even begin to substantiate that your claim of men and women under 21 are any more of threat than any other age group. Keep in mind to send our kids to war every day at the age of 18 or less to defend your country (and yes, they do that with guns) but tell them they cannot have a gun unless they agree to join the military.
