

Submitter: Michael Monen
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2007

This HB (HB 2007) is just another proposed violation of my Civil Rights. Please show me in writing, were in the United States Constitution and/or the Bill of Right's that it is a crime to carry any type of arms in any location or place. Furthermore, provide data (and don't continue to lie or manipulate the numbers) that would even begin to substantiate that shows any law-abiding citizens are more likely to cause violence because of the location or place in which they are entitled to carry a concealed gun over another location or place.
