Committee: House Committee On Judiciary
Measure: HB2006

Good afternoon members of the House Judiciary Committee,

I am writing you today in resolute opposition to HB 2006. This measure is a feel good measure that will do nothing to help public safety because violating the rights of adults is 1. Unconstitutional and 2. There is no data that shows that violating the civil rights of legal adults will do anything to prevent "Gun violence." We do not have a violence problem, we have a lack of enforcement problem and a lack of access to mental health problem. Your irrational fear of an inanimate object that always manifests itself as another "NEW LAW." The problem is that all of these new laws are detached from reality because you have no working knowledge of firearms or firearms owners. Oregon always prides itself on its free thinking mindset but unfortunately follows the federal government here over a cliff. I implore you here to be reasonable and oppose HB 2006. This most certainly will be challenged in court just like Measure 114. Thank you for your time.
