Measure: HB2006

I oppose any more gun laws. Why do we keep penalizing “law abiding citizens” instead of focusing on the real problems? We should be focusing on mental health, enforcing laws already in place, and holding criminals accountable. This bill will do nothing to curb gun violence! We should be able to protect ourselves. An adult is labeled “18” but age restrictions are now “21” for most things. We need to stop the nonsense. Military age should be 21 to enlist if this law takes place. Vote NO on this bill.
