Measure: SB1051

I am opposed to SB 1051. Every year we have attacks on our land use laws by people whose sole aim is to enrich themselves by turning their land into housing developments. The success of our laws is obvious to anyone who travels elsewhere in the country and sees the endless sprawl, the farm land being paved over, the wildlife being displaced. Leave our land use laws alone! The reason housing is so expensive here is that wealthy people who have ruined their own states are coming here to enjoy what we've preserved.
