

Submitter: Nolan Howell
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2007

As a disabled veteran of United States Army , I oppose this bill!

With the push to reduce funding for law-enforcement it is creating longer response times, and we as Oregonians need to be able to protect ourselves, no matter where we are in public! Concealed carry holders should be able to carry everywhere in public. Why you would try to restrict legal law abiding citizens from carrying firearms is absolutely ridiculous. It is our second amendment right and should not be restricted no matter the location.

Awful horrendous things happen because bad non-law-abiding citizens abuse, guns vehicles, and many other tools to hurt and harm and even kill innocent people. To think that lawn enforcement will always be there to stop these criminals is insane. We as free law abiding Americans have the right to defend ourselves and anyone who tries to harm the innocent, should not be restricted in any way from carrying a firearm.

I am a US Army veteran and served and almost died for this freedom. Please do not take my freedom, or the freedom of Oregonians by passing this bill!

Oregonian, disabled veteran
