

Submitter: William Angellford

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

I stongly oppose this bill.

This bill is literally allowing children to be taken from their parents to have permanent alteration of their bodies- via surgery or drugs without the knowledge or consent of the parents. This is no-joke nazi medical experiment stuff. Whoever is willing to support this literally should be put on trial for crimes against humanity.

Oregon law makers- your day of reckoning will come!
