

Submitter: Mark Pavlicek

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB2990

I have an important dream- that buildings in disaster prone areas like the Tsunami Zone on the Oregon Coast or disaster prone areas to wildfires in multiple areas of our state... to earthquake preparedness zones like in downtown Portland... all of these places can be equipped with resiliency and efficiency so that our citizens might know what to do when disaster strikes, and to be prepared.
