On Behalf Of:

Committee: House Committee On Rules

Measure: HB2004

Please pass this bill.

I'm so tired of the current system where I can't vote for who I really want to because of the opposite candidate is so unrelatable and terrible for my ideals. Ranked choice voting has worked for Alaska and it can work here too.

We are all tired of the only choice to vote for being between a giant douche and a turd sandwich.
