

**I remain NEUTRAL on [SB 31]...**

**[SB 31] states, "...SECTION 1. The Employment Department shall study issues** relating to the family and medical leave insurance program established under ORS chapter 657B..."

**[ORS chapter 657B]:** [https://oregon.public.law/statutes/ors\\_chapter\\_657b](https://oregon.public.law/statutes/ors_chapter_657b)

Studying the aforementioned is a great idea but there is "No" mention as to the **cost** of the required "study."

What is the scope of the study?

Is there a necessity to hire outside contractors to assist in the study?

Will more staff be required to complete the study?

These are but a few questions [SB 31] fails to address.

Since [SB 31] is a great idea but requires more detailed information.

David S. Wall

Mr. Oregon Concurr.
