

Submitter: Jerry Jones

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2007

As a veteran this bill violates my constitutional right to protect myself and others wherever I am. With the lawlessness that we have these days I can't count on other resources to come to my defense. I must have the opportunity to defend myself wherever I am at all costs. I strongly oppose this bill! This bill would put more restrictions on those law-abiding citizens that have taken extra measures to protect themselves and their families. Criminals defy any laws that are on the books which put other citizens at risk and not to be protected in a situation could be life or death of myself, family and other citizens of the community.
