

Submitter: Juniper Jacques

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

I support this bill to protect reproductive rights and the right to gender affirming care. Access to both have saved my life, as a trans person with a uterus. It has saved my friends' lives. Especially with rights being stripped away elsewhere in our country, we need to make sure that Oregon is a safe place to live for the huge portion of the population that consists of those needing access to this incredibly vital healthcare.
