Measure: HB2005

Representatives,

This is yet another demonstration that members of the Oregon Legislature seem incapable of upholding their Oath of Offices. When will you tire of breaking that Oath and be on the side of both the US Constitution and the Oregon Constitution. Haven't you put enough people into opposite corners with flimsy use of your responsibility? Every year it seems your only goal is to acquire more control and get more money out of our pockets. You even take money from suckers of ponzi scams now and refuse to give it back.... sheesh.

We who believe in our Freedom and the Bill of Rights grow weary of watching you turn your back on a once very livable state. You collected your paychecks all through the now proven farce of a lockdown didn't you? Funny that. Guess your remote tax supported salary as Zoomers didn't improve your ideas much. Just expanded all the old tired bad ones.

No to yet another violation by politicians bent on turning Oregon into a self serving police state. Could you please figure out a way to stop trying to destroy our 2nd Amendment rights .... again. We get the backdoor nuance of this Bill. Why are you so hell bent on entrapping law abiding gun owners? Or maybe I answered that question already in this paragraph.

Go fix Portland why don't you. But don't raise taxes to do it. You've gotten enough in your pockets already and to tell you the truth, I'm not sure Portland is worth it anymore.

Sincerely,

Sally Klein
