

Submitter: kendall derby

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB1051

Thousand Friends should be smart and let some of the pressure off before the kettle explodes.

Thousand Friends shrill alarm is crying wolf. They have dominated land use planning for decades. The issue of growth has not gone away. One size fits all remedy retains power for Thousand Friends but it obviously does not work in the long run. Bills like this can allow some sanity. Crying about a wolf attack will harm the land use progress they have accomplished.

Support this bill. Spend time and effort protecting resources that are really important.

Thank You
