Measure: SB1051

We have curtailed housing in Oregon long enough. The current system had denied generations the ability to own a home, or find affordable rental housing. Oregon's land use laws have resulted in a system that's not only cruel in its displacement of the most housing vulnerable, but also detrimental to the needs of our employers who desperately need to house workers.

Communities fare infinitely better when people can live and work in the same city (or in close proximity)
