

Submitter: Waterman Charlie

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB85

As a rancher in Coos County, I recommend you oppose SB 85. The livestock industry is the bread and butter of our county and many operations are family ranches which have worked the land for over 100 years. The legislature should not be making determinations as to numbers of livestock/animals that change a "family ranch or dairy operation" into a factory farm. This is an overreach of government's authority. Oppose SB 85.
