

Submitter: David Klaus
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2007

This bill clearly has only one purpose, and that is to further restrict the Second Amendment rights of law abiding gun citizens. People who take the time to go through the process of obtaining a concealed carry permit are not a danger to the public and can actually add to public safety. The right to protect oneself while at home or in public is a God given natural right that is not to be infringed. Creating more gun free zones will not enhance public safety but will detract from it by emboldening criminals who will have even less to fear in pursuit of lawlessness. This bill violates the Second and Fourteenth Amendments, is mean spirited and is just plain harassment of the law abiding. Therefore, I'm asking that this bill be withdrawn from consideration.
