

Submitter: Michelle Casey

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

Writing in support of HB 2002, this bill is vital to protecting and expanding the human right to access reproductive health care. During this time of states and the Supreme Court taking away health care access, and attacking gender-affirming care; Oregon needs to be a champion for the people living in our state, and for those traveling to our state to seek care. RHEA was a huge step forward in codifying abortion access, and now HB 2002 has the opportunity to protect contraception, protect reproductive health care workers and facilities, as well as passing gender-affirming care into law.

Please support this bill in committee so it can be voted on in the House and Senate, and be passed into law.

I am a LA2 for Representative Jules Walters, however this testimony is my own as a citizen of Oregon and a resident of Multnomah County. This testimony does not reflect the views or opinions of Rep Walters or her office.
