

Submitter: Robert Woodrum
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2005

Owning a gun isn't just allowed by our constitution, but it's also our God given right. Given to us by a loving Father in Heaven, that knew we would need to have a means to supply food for our families, and for their protection. Who do they need protection from? They need protection from those without respect for the law now, or any new laws that would be passed in the future. We also need to protect them from the tyranny of a rogue government that would like to see us without any way to do so. Both, those of other countries, and sadly, some of our own.
