

Submitter: Alexandra Bruckner
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2005

I oppose HB 2005 as it runs completely counter to the 2nd Amendment. Ghost guns, hobby guns, or "undetectable firearms" are not the issue when it comes to gun violence. This bill incorrectly and dishonestly conflates lawfully home-constructed firearms with guns that criminals have stolen or purchased illegally, and then purposefully scrubbed the identification number off the firearm with the intention of doing harm and obscuring evidence. These are not the same thing. HB 2005 is a clear infringement of our right as American citizens to keep and bear arms.
