

Submitter: Alexandra Bruckner
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2006

I oppose HB 2006 as it runs counter to the 2nd Amendment and infringes on the liberties of the American people.

Oregon needs to decide at what age they think a person is mature enough to be an adult. There are some Oregon legislators who wants to lower the voting age to 16; at 15 in Oregon, children are deemed mature enough to consent to sex changes and hormone "therapy" or blockers without their parents' knowledge or consent; at 16 they can drive a car; and 18 is when they can sign up to serve in the military, pay taxes, marry, and vote; and at 21 an Oregonian can legally purchase cigarettes and alcohol. Why would we be lowering the ages at which a person can vote or submit to life-altering surgery, but be raising the age to purchase a firearm? There is no indication that this group (18-20 year olds) disproportionately contribute to crimes. Vote no on HB 2006.
